## April is Physical Wellness Month!

Physical Wellness Month is celebrated in April every year. This time of the year, everyone is encouraged to check on themselves & observe a healthy lifestyle. From exercising and eating healthy to unwinding, there are a lot of simple activities you can do for a fit body and a sound mind like doing yoga, going for a walk, and more. It's also time to explore different ways to improve your daily habits. Everyone should ask themselves: "How can I be better inside and out? How can illnesses be prevented? How can stress be minimized?" If you find yourself asking these questions, April is the month to seek the answers.
